**FIRST QUARTERLY RESULTS ANNOUNCEMENT  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”)  
OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK  
EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.*

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*For the three months ended 30 June 2016*

## 1. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

The Group's consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and with the applicable disclosure requirements of Chapter 18 of the GEM Listing Rules. The principal accounting policies used in the consolidated financial statements are consistent with those followed in the preparation of the Group's financial statements for the year ended 31 March 2016. The HKICPA has issued a number of new and revised HKFRSs. For those which are effective for accounting period beginning on 1 April 2016, the application has no material impact on the reported results and financial position of the Group for the current and/or prior accounting periods. For those which are not yet effective, the Directors anticipate that the application of those new and revised HKFRSs will have no material impact on the Group's results and financial position.

## 2. REVENUE AND SEGMENT INFORMATION

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received and receivable for goods sold and services provided in the normal course of business, net of discounts and refund. The Group's operating activities are attributable to a single operating segment focusing on provision of consultation services ("Consultation Service"), prescription and dispensing of medication and/or skincare products including sale of skincare products ("Prescription and Dispensing Service") and provision of medical skin care treatments ("Treatment Service"). This operating segment has been identified on the basis of internal management reports prepared in accordance with the Group's accounting policies. Dr. Kong and Mr. Lo Kwok Bun, two of the Directors, have been identified as the chief operating decision makers ("CODM"). The CODM review the Group's revenue analysis by services and products in order to assess performance and allocation of resources.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW**

The Group is a medical skin care group operating two medical skin care centres (“**Medicskin Centres**”) in Hong Kong that primarily focus on the treatment of skin diseases and problems and/or the improvement of appearance of clients. The Group provides services to clients for the treatment of, inter alia, skin diseases and problems such as acne, pigmentation, rosacea, dermatitis, eczema and warts, as well as for the improvement of appearance through, inter alia, skin rejuvenation, facial sculpturing and body contouring treatments, treatments of acne scars and enlarged pores, removal of undesirable naevi, and hair removal.

During the three months ended 31 March 2016, the revenue of the consultation service, prescription and dispensing service and treatment service accounted for approximately 7.7%, 42.6%, and 49.7% of the total revenue of the Group respectively. For the three months ended 30 June 2016, the revenue of the Group decreased by approximately HK\$1.6 million, or 10.1%, to approximately HK\$14.2 million, when compared to the three months ended 30 June 2015. The decrease in revenue was primarily attributable to the decrease in general consumer sentiment due to the slowdown of economic growth in Hong Kong, the People’s Republic of China (the “**PRC**”) and the global economy and the increasingly intensified competition in the industry.

In May 2016, the Group’s Medicskin Centre in Central (“**Central Medicskin Centre**”) was relocated from Tak Shing House to New World Tower II, which occupies the whole 21st floor of New World Tower II, with around 5,000 square feet in gross floor area. The new Central Medicskin Centre with elegant décor provides better facilities and a more comfortable environment to our clients which enhance their experience. We believe this in turn will enhance clients’ satisfaction and in long term bring additional revenue to the Group.

### **OUTLOOK**

It is expected that since Hong Kong, the PRC and the global economies will continue to fluctuate in the year to come and there will be increasingly fierce competition in the medical skin care industry, the Group’s business will more or less be affected. Nevertheless, with the higher growth rate of female population in Hong Kong, continuous aging trend in the population of Hong Kong and growing emphasis on a person’s physical appearance in the society, medical skin care services is becoming more commonplace and it is expected that more people will seek skin care services for improvement of their appearance in pursuit of beauty and to improve their self-esteem, thereby supporting growth of the medical skin care industry in Hong Kong. Continuing technological innovation and improvement of treatment device by manufacturers also offer growth opportunities within the industry for all players.

The government of Hong Kong has been considering to tighten up the regulation of the beauty industry and is currently reviewing the existing legislation with a view to enacting laws or amending the existing legislation to distinguish between medical treatment and beauty treatment and to implement regulatory controls over certain cosmetic procedures in order to protect the interests and safety of the public. Such review or amendment of the existing legislation may introduce a change in compliance standards in connection with delivery of treatments, and ultimately bring higher level of confidence to customers, enhance the level of safety in the industry and increase the total spending in the market.

Online consumption is a trend in the digital era and influences the local retail market. Traditional retail businesses are losing market share as people all over the world increasingly purchase goods over the Internet. The Group will continue to explore and launch new skincare products to enhance the quality, effectiveness and variety of our products and explore different sales channel and platform for sale of its skincare products to enhance our competitiveness.

The Group will continue using its best endeavors to provide the highest quality medical skin care services and products to the clients and strengthening its market position so as to grow its brand and business.
